

EE417 - Web Applications Development

Group Assignment – Group F Minutes

Author:	Mark McGrath
Project Name:	Complete Web Application
Project Stage:	Progress Review
Date:	20/04/2021
Meeting Duration:	4 hours
Present:	Mark McGrath Michael O'Hara Daire Cooney Ciaran McCormack Matthew LeBeouf Corentin Lestanc Rui Fan Remi Bertogliati
Apologies:	Saimi Saleem Sepeng Yang

1. Meeting Objectives

This was a project progress review meeting to review actions from previous meeting and catch up on the overall development so far.

The meeting evolved into a full blown application Walk through/System testing/Application development workshop which lasted four hours. This was a hugely valuable meeting as everyone got sight of the integrated application and issues were readily identified and in a lot of cases fixed on the spot by the team working as a group.

The team decided that Mark's PC would now be the main testing PC for the complete application. The team worked together to get Mark's environment setup correctly with environment settings, database username and password in JSP and servlets and JRE files

Actions arising from today's workshop

- a. Disconnect not working on Burger side navigation – **Remi/Ciaran**
- b. Pop-up window not appearing on admin.jsp - **Remi**
- c. Expand user table on admin page to include all details – **Remi**
- d. Rename customer ID to transaction ID, make primary key on transaction table. Make ID foreign key on transaction table – **Mark to describe DB relationship and Matthew to effect changes to SQL script.**
- e. Fix Password validation – **Daire**
- f. Remove Go Admin button from burger – **Remi**
- g. Remove 'forgot password' from login screen – **Remi**

2. Next team meeting

Next project progress meeting is scheduled for Friday 23rd April at 10.30am at the usual Zoom link. - **All**
